

Instructions for the Semaphore Activity Sheet

Messages were passed between the Martello Towers using visual signals called semaphore code.

We've put parts of a secret message on each of our 6 Martello Tower Trail Boards. Visit each board and record its code in the correct space on the activity sheet, then use this cipher sheet to decode them into letters of the alphabet. Can you decipher the secret message?

Hand in your completed sheet at Jaywick Martello Tower and if you got it right, you'll win a badge!
